- Served in a various leadership roles ranging from local, state, regional and national level, including serving two terms as Director of Undergraduate Affairs where I oversaw programming and compliance of over 125 chapters across college and university campuses in the U.S. All roles under this organization have consisted of member training and development, serving as a liaison between the college and university campuses and the sorority, and leading sorority-wide academic efforts.

Q6 Briefly state your (nominees) qualifications for this office.

I am applying for this role primarily to serve our members and bolster their experience through programming and resources, to ultimately help us all be better educators. I feel that my professional experiences as a former community college advisor, coordinator of TRiO Upward Bound, previous high school school counselor and now as a counselor support specialist leading school counseling efforts in my charter network have all provided me with the depth and breadth to think about the needs of our members from the high school to CBO and college level. I also believe that my involvement in other professional associations and organizations has equipped me to continue my service to the profession as I have learned more about the structures within NACAC and WACAC, the varying needs in the membership and know what it means to run a regional and national entity with primarily volunteer efforts. My work and experiences have allowed me to learn about running a 501(c)3, building a professional network from scratch, listening and learning from member feedback, planning small and large scale events, developing student and adult-centered curriculum, fundraising and overall creating systems. While my work experience has primarily been at the middle and high school level, and college more focused on my orientation counseling as an undergraduate and at advisor at the community college, partaking in volunteer efforts and serving on the board for my alma matter's alumni association has also helped me understand some of the heavy lifting that our colleagues at college and university campuses are managing, particularly around student enrollment and student services. I welcome the opportunity to further learn from others, grow and overall to serve an organization from which I have gathered resources, support and a network to be a better educator for my students.
